

THE INVADING FLOOD.

A United Press dispatch of two or three days ago stated that 6000 Italians had left their native country within the previous fortnight for the hospitable shores of this "dumping-ground of the nations." Almost without exception these immigrants were paupers. They left Italy on account of hard times, and with very few exceptions, had barely enough money to land them, penniless and forlorn, in New York. A dispatch from Berlin recently stated that 200 Jews had arrived in that city alone on their way to the United States, having been expelled from Russia by imperial ukase. The great majority of these people are doubtless ignorant and poor; indeed they could not well be anything else under the crushing process to which they have been subjected by the Czars through many generations.

While Americans sympathize with these creatures who, under generations of misrule and tyranny, have been ground down to pauperism, there is no reason why America should constitute itself a poor house to take care of these unfortunates.

They in no way add to our resources, but as a rule amalgamate with the worst elements of the large cities, and become a part of the restless, discontented class, who need but a leader to rise in riot and bloodshed against the administration of American law.

The talk that these people soon become a part of our citizenship, and are good Americans in a few generations, is all nonsense.

We do not want the refuse of Europe to improve the American breed. The old stock that made the United States an independent Republic cannot be improved by any such additions, and all the talk that it can be made by a cowardly press just before election to catch the foreign vote.

These people simply come here to compete with American labor, and a tariff that does not protect American labor from this unwelcome invasion is a fraud.

We must protect our shores from the Chinamen on the West and the paupers of Europe on the East, or it will take but a few more years to swamp us utterly. It is a time-serving and cowardly Congress that hesitates about passing a bill that would shut down the gates forever.

They will vote against any proposition of that kind to catch the foreign vote for a second term.

The Tax Question.

The Reno Gazette endorses the APPEAL's views of the taxation of property as follows:

The method followed by our County Assessors and Board of Equalization in assessing property at a low valuation—50 per cent. of what it would actually bring in the market—and making up the assessments, is certainly a mistake, for it keeps out foreign capital and cripples us in every way. One of the first questions capital asks is, "What are your taxes?" And if they are told that they are three dollars on the hundred that is all they want to know. They make no further inquiry about us or our possibilities, but leave us severely alone. If we could assess our property at its full value we could reduce our assessment one-half, and still have just as much money.

Death of "Nick" Miller.

N. W. Miller, generally known as "Nick" Miller, died here yesterday. He was a well known character, having lived in the mining regions of Nevada nearly all his life and in Pioche for about 18 years, following gambling for a livelihood. Drink long since got the better of him, and he was in indigent circumstances for a long time.

—Record.

Senator Blackburn of Kentucky says ex-President Cleveland cannot be renominated. The Senator is mistaken; he can be renominated, but he cannot be elected.

THE MANHATTAN

Life Insurance Co.,

OF NEW YORK.

ASSETS - - \$12,000,000.

BETTER THAN A

GOVERNMENT BOND.

The MANHATTAN for a limited period will offer the residents of Nevada a Bond Combining Insurance and investment that is in reach of all and which every healthy able-bodied man in the State should possess—for the protection of himself and family. In explanation read what follows: Suppose a special agent of the U. S. Treasury Department should call on you today and say: The Government would like to sell you bonds for any amount, between \$1,000 and \$30,000 and if it is not convenient for you to make the investment at once, we will allow you to pay for the bonds in

Ten Equal Annual Installments.

And, suppose, in addition to this, the Government, wishing to make this the most desirable investment in the world, should stipulate in the bond, not only to pay them at the end of the term, but in case of your previous death, to pay them to your family and AT THE SAME TIME RELEASE YOUR FAMILY FROM PAYING ANY FURTHER MONEY.

Would you not at once close with such an offer? And yet this is practically what the Manhattan Life Insurance Company, of New York has done and is doing.
